

Experiencing Marine Reserves (EMR) – 21st Annual Poor Knights Competition

Trip Date: Friday 13th May 2022 (Saturday 14th BU)

Subject to appropriate COVID level/traffic light (some conditions relating to our COVID Safety Plan may apply)

Thanks to Dive! Tutukaka and the Bobby Stafford-Bush Foundation

The national delivery of the EMR programme is made possible thanks to the Tindall Foundation.

Northland and Auckland delivery is supported by Foundation North.

Auckland delivery is supported by Auckland Council Local Boards.

The action component of EMR is an essential factor in the students learning process and one which helps us to assess the effectiveness of the programme at meeting the projected learning and conservation outcomes.

EMR KAITIAKI ACTION

Experiencing Marine Reserves
Te Kura Moana

Theme Areas for 2021 – '22

EMR action projects foster kaitiakitanga (guardianship) and facilitate action to address marine issues. Action projects are not limited to our suggested theme areas below but must be NZ relevant, reach beyond the classroom and relate to marine conservation, marine monitoring, addressing marine issues and/or building public marine awareness.

Local action

- Beyond the presence or absence of marine pests
- Inaturalist.nz underwater observations
- Beef Saverz fish surveys
- MRZ surveys

Campaign

Present your own design for marine conservation in your backyard

Debate Robos, Marine Reserves & other marine protection measures

Dive deeper into practical investigations raising awareness of mangroves (Low Manawa), seaweeds (Low Rimurimu) & other important marine habitats.

Turtle champion speaks

Fundraise

Put it forward fundraising to fundraise to help other students experience snorkelling, to contribute to new EMR equipment so to secure your schools future participation in the EMR programme.

Fundraise to support EMR endorsed NZ based conservation projects such as www.habitreeze.org.nz community led marine conservation in the Bay of Islands and the sea turtle rehabilitation projects at Sealife, Kōkō Taurua Auckland.

www.habitreeze.org.nz/ and see turtle rehabilitation www.sealife.co.nz/kōkō-taurua/whats-inside/habitreeze/turtle-bay-turtle-rescue

If you have been inspired by a snorkel in your backyard, why not make a submission?
https://www.emr.org.nz/index.php/support-us/make-a-submission

By encouraging students to undertake action that is based on their own experience, EMR aims to empower students and encourage support for marine conservation.

Students need to be able to decide on, plan and take effective action on marine environment sustainability issues that concern and motivate them. The action needs to be aimed at addressing the cause of the marine issue. Teachers need to connect the students EMR experience and growing understanding of the issue to achievable things they can do that will make a difference for the future and put their idea into action.

The action could have a direct impact on the marine environment to mitigate, remediate, resolve or prevent harm to marine ecosystems. Action may also be about seeking to influence others to make decisions and choices that will result in improvements to marine ecosystems.

To be eligible for the EMR action prize, Annual Poor Knights competition, students must be involved in a group action and/or an individual action project **for** the marine environment.

EMR action project prize

Criteria

Action projects that demonstrate guardianship of their marine environment

Judging criteria

NZ relevant

Action reaches beyond the classroom

Action relates to marine conservation, marine monitoring, addressing marine issues and/or building public awareness

You must participate in a class/group or individual action project as well as submitting something individually to be chosen. Tell us about or submit information about your action (use EMR action plan template):

- The course of action you were involved in to make a difference, for the conservation of your local marine area
- Results of the action undertaken to date and any plans for the future.

Your individual submission (class work) to support your action could be judged on the following:

- Your (written or oral) explanation of your first-hand experience with marine reserves or the marine environment
- Your explanation of the difference between your local area and marine reserve (either habitat differences if the two are comparable e.g. same type of habitats or social differences in the way the community threat the marine environment (full protection vs. no protection). This comparison could also be in the form of research (without visiting a marine reserve).
- Your passion and demonstration of understanding of marine conservation, marine reserves, marine protected areas and or/marine issues in New Zealand Your communication and demonstration
- Creativity, presentation, leadership and kaitiakitanga

- Use of NZ marine biodiversity and conservation context (NZ references & pictures) e.g. no pictures of exotic clown fish etc
- Your teachers opinion's and recommendations

This competition trip is sponsored by the Bobby Stafford-Bush Foundation and Dive Tutukaka, with support from the Tindall Foundation and is offered to students (number depends on number of students involved/spaces on boat and quality of action projects) from each school participating in the EMR programme from Northland and Auckland (up to 20 schools every year) and 1 representative from each other region participating in EMR (Taranaki, Coromandel, Gisborne, Wellington, Nelson and Otago or Stewart Island). Based on the criteria above, representatives from each of the participating EMR schools/regions will be chosen by your EMR regional coordinator (evidence may be collected at time of completing projects and winning representative/s may be informed by the end of April 2022).

The Bobby Stafford-Bush – EMR Ocean Art prize

In addition to the opportunity to represent your school or region for the EMR ACTION prize, we will be picking one piece of artwork per EMR region (1 student and 1 parent will be funded from each region to join the annual EMR trip to the Poor Knights in May 2022).

***A Living Inheritance** - Bobby Stafford-Bush was young but he was passionate about the sea, marine life, art, technology, inventing and making things. He also liked to help people. He was a very capable young man who had his life ahead of him when he was so tragically killed in a car accident at 16 years of age in 2001. Some time has passed since Bobby died and the family have decided that the formation of a charitable trust would in a sense be a living document to Bobby and in essence be an extension of what if he had lived. Accordingly, the Family decided to create a "living inheritance".*

The Bobby Stafford-Bush Foundation supports this special prize for young kiwis that have experienced the marine environment with EMR and display that passion and experience through art. EMR regional coordinators will annually choose 3 pieces of art from each EMR region by the end of April 2022, EMR management and sponsors will then decide on 1 piece of art per region (Northland, Auckland, Taranaki, Coromandel, Gisborne, Wellington, Nelson and Otago), 1 student and 1 parent/guardian will then attend the annual EMR competition trip to the Poor Knights per region to including flights and accommodation if applicable. An overall ocean art winner will be chosen by the sponsors, receiving a cash prize and the artwork will be used for promotional purposes for both EMR and the Bobby Stafford-Bush Foundation.

Bobby Stafford-Bush – EMR Ocean Art criteria

Must convey a marine conservation message, such as:

- Protecting or education people about marine biodiversity/marine issues
- Human impacts on your local marine environment
- Marine conservation (different marine conservation measures)
- Marine reserves (rules, boundaries, local marine reserves)
- Differences and similarities between your local area and marine reserve
- Kaitiakitanga

Image by Darryl Torckler

**Must mention Experiencing Marine Reserves or EMR in some way.
You will also be judged for creativity and presentation.**
Below are examples from previous years.

Terms and conditions

*You must be willing to allow yourself and your project and/or artwork to be publicized in the media and to promote EMR and the Bobby Stafford-Bush Foundation. You must arrange time off school, your own lunch and transport to and from Tutukaka marina (for Northland and Auckland, you will receive detailed trip info closer to time). For participants from Taranaki, Coromandel, Gisborne, Wellington, Nelson and Otago or Rakiura your flights and accommodation will be arranged and paid for (you will receive detailed trip info closer to time). Students and 1 accompanying parent/guardian will travel aboard the Dive Tutukaka boat 'Perfect Day' for **free**. You will need to be at Tutukaka marina by 9.30am. Gear hire for the day will be provided free of charge, but you are welcome to bring your own if you have it. If a parent or guardian is unable to attend, please discuss with your EMR regional coordinator.*

*Please note that this competition trip is **offered on this date only**, if you know your child can not make that date or if unforeseen circumstances arise, notify us, the place may be offered to your schools back up person or to another school.*

The amount of students that attend from each Auckland/Northland school is at the discretion of the EMR coordinator, the standard of the work produced and the amount of space on the boat. One student may be chosen from a group project, at the discretion of the EMR coordinator, with regards to the criteria above, in some cases, when contributions to a group project are even, names may be drawn from a hat or students and teachers may be interviewed to determine individual attributes and leadership potential for consideration by EMR.
